hand care*

*The service designed  
to suit you*

Established in 1979, Anglian Chemicals has always put the customer first. Our aim is to help create a clean, safe and hygienic environment for us all by providing innovative and cost-effective solutions to today's cleaning and hygiene problems. We have a commitment to bring ever greater benefits in terms of service, efficiency, quality and value for money to our customers covering every aspect of cleaning, hygiene and sanitation.

### The Washroom and Hygiene Service

Anglian Chemicals offer a total washroom service which includes supply, installation and servicing. From vending machines to air fresheners, hand dryers to nappy bins, our product range has been designed to cover all aspects of washroom hygiene. This, matched with our rental schemes and servicing options offers you peace of mind and confidence in that your needs are being met.

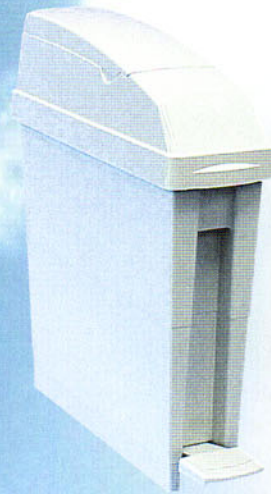

We provide the flexibility that you require as the service is tailored to match your requirements. If your needs change, we will adjust arrangements to suit.

We offer a safe and discreet sanitary waste collection and disposal service, designed to help you dispose of your waste in accordance with the law. This stops sanitary waste being flushed into the sewerage system which pollutes our rivers and coastlines. It also helps to prevent blocked drains.

At Anglian Chemicals we take great pride in providing all our customers with an excellent service. With our knowledge, experience and carefully selected product range, we can offer the highest levels of service for the hygiene standards that you demand.
